PROFILE

Resourceful third-year Computer Science student specializing in Flutter, Dart, and Java. I am a proactive team player skilled in UI/UX design (Figma), OOP, and Agile methodologies, with proven ability in problem-solving and debugging. I contributed to a key project—a smart health assistant—and am driven by a passion for solving real-world problems through technology.

EDUCATION

Umm Al-Qura University (UQU), In Progress (Third Year) Makkah, Saudi Arabia.
GPA: 3.53

COURSES

UI/UX Bootcamp, nmkn 08/2025 – 09/2025
Completed a UI/UX bootcamp covering design principles, prototyping, animation, and professional design handoff.

Flutter & Dart App Development Bootcamp, Hash Plus 06/2025 – 07/2025
Completed a two-week mobile development program using Dart, Flutter, BLoC, Firebase, APIs, and MVVM.

PROJECTS

Smart health assistant for epilepsy patients with smart watch

- Completed a two-semester Software Engineering project focused on writing an SRS for a smart health assistant. Covered requirements analysis, system structure, and user flow design using professional diagrams.

APX - Qudurat and Tahsili Study App, OOP JAVA

- Built a Java-based app to help high school students and teachers prepare for standardized tests. Applied OOP principles to streamline study workflows and improve user experience.

UI/UX Portfolio Projects, nmkn

Worked on four UI/UX projects including Saudi Trails, ToYou, Ninja, and Nourk apps. Focused on wireframing, prototyping, redesign, and accessibility for real-world travel, delivery, and Hajj solutions.

ShoppingCartDB, SQL

- MySQL relational database with queries

Sukoon Plant, Hash Plus

- Final project for the App Development Bootcamp: Built a simple plant store using Flutter over a two-week development period.

SKILLS

Technical Skills:

- Dart, Fultter
- Java
- JavaScript, CSS , HTML
- SQL
- Figma

Soft Skills:

- Leadership
- Project Management
- Problem-solving Teamwork

ORGANISATIONS

VolunThon, Hackathon Presenter 12/2024 – 12/2024 | Makkah Chamber
Won first place at VolunThon with *Absar*, a tech-health project supporting Hajj pilgrims.

Tamayouz, 3rd Education Hackathon 11/2024 – 11/2024 | Riyadh
Finalist in Education Hackathon with *Sada*, a Quran tool for the speech-impaired, chosen from 500K+ Gulf teams.
